

Silver Stars Covid-19 Reopening Plan

We've instituted thorough cleaning and safety practices to support the health and wellness of our families and staff. We've done this by carefully following all State and Federal guidelines for COVID-19 and taking additional steps to ensure your safety at our facility.

Supporting Social Distancing Across Our Facility

- Rotation schedules created with the intention of accommodating physical distancing guidelines
- Staggered activity start & finish times and the utilization of multiple entrances & exits to reduce the amount of people in our lobby area.
- Introduced social distancing markers throughout the center.
- In order to limit guest capacity in our lobby, only a visitor/adult of a student in a preschool class (Baby Stars, Little Stars, Twinkling Stars and Shining Stars) will be able to stay in our lobby during "rush" times (weekdays: 4pm-6pm; weekends: 8:15am-1pm). Visitors/adults of all other classes will NOT be permitted to stay in the facility to observe classes during these times. Baby Stars and Little Stars are the only classes that include adult participation.

Upgrade Ventilation to Increase Indoor Air Quality

- HVAC units serviced to clean the coils and make sure they are in good working order.
- Replaced HVAC filters with MERV 13 filters that remove a higher level of particles.
- Increased mechanical system run time and at higher speeds

Adding Layers of Strict Cleaning and Disinfecting Measures

- Increased frequency of cleaning and sanitization practices across high touch areas
- Trained staff members on proper cleaning & disinfecting procedures, and usage of Personal Protective Equipment
- Enhanced deep cleaning procedures using a sanitization, deodorizing and cleaning product called Tersano. Tersano kills germs in 30 seconds to 1 minute and is 100% chemical and toxic free. This means we can keep the gym open while we continuously clean throughout the day.

Promoting Healthy Hygiene Practices

- Increased mandatory hand washing amongst employees and gymnasts
- Increased sanitization stations throughout the facility.
- Mandatory masks for all staff, guests, and gymnasts over the age of 2 years old.
- Education: Signs advocating proper hand hygiene, avoiding sharing personal items, cough etiquette and physical distancing posted throughout the facility.

Training of Staff Members on New Protocols

- Instructed staff members in our new COVID-19 Incident Response Protocols to ensure we have the quickest and safest reaction to any possible exposure.
- Health Screening: all staff, student and guest will be monitored upon arrival for signs & symptoms of COVID-19. No students, guests or staff allowed who are showing symptoms of COVID-19, have been in contact with someone who is showing symptoms of COVID-19, or who has tested positive for COVID-19 within the last 14 days.

Promoting COVID-19 Vaccination

- Urging all eligible students and staff members to receive the vaccination to protect against COVID-19

While these practices will be new for us, we understand their importance and see them all as necessary steps to providing the safest environment possible for everyone at Silver Stars. It's also important to note that we've applied these measures with all of the updated information that we have access to and we will update our protocols as needed as we continue to learn more.
